Page

Serum enzymes. III. The significance of abnormalities of glycolytic enzymes in the serum of cancer patients. LAURENS P. WHITE 685
Immunogenetic studies on X-irradiated mice treated with homologous hematopoietic cells. MICHAEL FELDMAN and DAVID YAFFE 697
Validity of determining circumcision status by questionnaire as related to epidemiological studies of cancer of the cervix. ABRAHAM M. LILIENFELD and SAXON GRAHAM 713
Rate and equilibrium constants for the reaction of maleic anhydride with the methyl-1,2-benzanthracenes. MELVIN S. NEWMAN and SEI OTSUKA 721
Comparative chromosomal studies on mammalian cells in culture. II. Mouse sarcoma-producing cell strains and their derivative. ERNEST H. Y. CHU, KATHERINE K. SANFORD, and WILTON R. EARLE. [Plates 66–71] 729
Progressions of a reticulum-cell sarcoma of the mouse *in vivo* and *in vitro*. CLYDE J. DAWE, MICHAEL POTTER, and JOSEPH LEIGHTON. [Plates 72–77]. 753
Susceptibility of agent-free inbred mice and their F_1 hybrids to estrogen-induced mammary tumors. HOWARD B. ANDERVONT, THELMA B. DUNN, and HARRY Y. CANTER. [Plates 78–80] 783

No. 5—NOVEMBER 1958

Ultraviolet microscopy of X-irradiated intestine. YEVETTE S. LEWIS, HENRY QUASTLER, and GEORGE SVIHLA. [Plates 81, 82] 813
A retrospective study of lung cancer in women. WILLIAM HAENSZEL, MICHAEL B. SHIMKIN, and NATHAN MANTEL 825
Histocompatibility genes of the mouse. II. Production and analysis of isogenic resistant lines. GEORGE D. SNELL 843
Effect of iron and cobalt administration on the iron-containing proteins of rats bearing the Walker carcinosarcoma 256. RALPH F. KAMPSCHMIDT, WILMA L. GOODWIN, and MABELLE E. ADAMS 879
Cytogenetic, serologic, and transplantation studies on a heterozygous tumor and its derived variant sublines. KLAUS BAYREUTHER and EVA KLEIN. [Plates 83–85] 885
The RPL12 lymphomatosis virus in chicken embryo and in chicken-embryo tissue culture. Morphological and cytochemical observations. VITTORIO DEFENDI and GEORGE R. SHARPLESS. [Plates 86–95] 925
Measurement of average and total cell volume during the growth of ascites tumors. MARY E. RICE and EMMA SHELTON 961
Concentrative uptake of azaserine by neoplastic plasma cells and lymphocytes. ELLEN KANN PINE 973
Spontaneous leukemia at high altitude in C58 mice. PABLO MORI-CHAVEZ. [Plates 96–98] 985
Histopathogenesis of carcinoma induced in the glandular stomach of C57BL mice by the intramural injection of 20-methylcholanthrene. HAROLD L. STEWART, KATHARINE C. SNELL, and WILLIAM V. HARE. [Plates 99–106] .. 999
Announcements:
Summer Programs for College and Secondary School Students 1037
Precollegiate Summer Science Program 1037

No. 6—DECEMBER 1958

Endocrine control of mammary-gland development and function in the C3H/He Crgl mouse. SATYBRATA NANDI. [Plates 107–110] 1039
Influence of age and of iodine intake on the production of thyroid tumors in the rat. H. ISLER, C. P. LEBLOND, and A. A. AXELRAD. [Plates 111–113] .. 1065
Role of implanted inbred-strain thymic tissue in the development of leukemia in F_1 hybrid mice. RAGNA RASK-NIELSEN 1083

Page

Studies on the anemia of tumor-bearing animals. II. The mechanism of erythrocyte destruction. ROBERT E. GREENFIELD, WILLIAM R. STERLING, and VINCENT E. PRICE 1099

Incorporation of acetate-1-C^{14} into cholesterol by human intracranial tumors *in vitro*. DANIEL L. AZARNOFF, GEORGE L. CURRAN, and WILLIAM P. Williamson 1109

Treatment of mouse lymphosarcoma by total-body X irradiation and by injection of bone marrow and lymph-node cells. M. J. DE VRIES and O. VOS ... 1117

Cultivation of human breast carcinomas. ETIENNE Y. LASFARGUES and LUCIANO OZZELLO. [Plates 114–116] 1131

Preservation of a canine thyroid carcinoma in the frozen state. M. W. ALLAM, L. S. LOMBARD, E. L. STUBBS, and J. F. SHIRER 1149

Biologic testing of 3,4,9,10-dibenzpyrene. SUSHEELA S. WARAVDEKAR and KAMAL J. RANADIVE. [Plates 117, 118] 1151

Role of the pituitary in *N*-2-fluorenyldiacetamide carcinogenesis. M. A. O'NEAL, HOWARD E. HOFFMAN, B. G. DODGE, and A. C. GRIFFIN 1161

An evaluation of the Eisenstaedt serological reaction in cancer. JACK H. HILL .. 1169
